## California Department of Education School Accountability Report Card Reported Using Data from the 2015-16 School Year

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fq/aa/lc/>.
- For additional information about the school, parents/guardians, and community members should contact the school principal or the district office.

### DataQuest

DataQuest is an online data tool located on the [CDE DataQuest Web page](#) that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## School Description and Mission Statement (School Year 2016-17)

Newman Leadership Academy is a site-based TK-6 public charter school. The educational program is uniquely suited to meet and exceed the diverse educational needs of the students we serve. The key characteristics of NLA Charter School include:

- Intensive focus on literacy. Our school's intensive focus on literacy begins with the foundation of phonics and grammar so that students may develop their knowledge and understanding of composition and literature. Reading is a key component of our academic program and a love of reading for leisure and pleasure will be instilled in each student scholar.
- Teaching students how to learn and how to master grade-level skills. We teach students critical analysis and reasoning skills so that they know how to learn and how to access knowledge.
- Highly structured values-centered curriculum. Our school emphasizes learning and achievement and focuses on developing within each student a strong sense of self-discipline, personal responsibility, and respectfulness.
- Community Oriented Staff. Our school belongs to the community. Students, teachers, parents/guardians and administrators develop a strong relationship and work collaboratively to educate students and manage the school.

### Mission

The mission of Newman Leadership Academy is to provide an excellent education, equip students to have strong morals and be responsible community members, create a foundation for life-long learning, and develop students' capacity to reach their highest potential in every area of life. Through a community-wide collaborative effort, we will serve underserved students and families.

### Vision

The vision of Newman Leadership Academy is to reinvigorate our community by building healthy scholars and leaders who contribute to building a healthy community. Individual achievements will positively impact families, neighborhoods, and the global society in which we live. Newman Leadership Academy seeks to create a school with a positive reputation for academic achievement that will draw students from San Bernardino and surrounding areas.

### Goals

Goals for the Charter School include but are not limited to the following:

- Student scores on state-standardized tests will demonstrate sufficient annual improvement to meet the California Academic Performance Index growth targets for schoolwide and numerically significant subgroups.

- Students will improve on quarterly standards-based benchmark assessments in reading, writing, and mathematics.
- Students will gain the prerequisite knowledge to move to the next level of educational attainment.
- Students will demonstrate high levels of academic achievement and creativity resulting from the selected curriculum.
- Students will have access to support services (health care, counseling, mentoring) which influence academic growth and achievement.
- Students will become self-motivated, competent, lifelong learners.

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. The CAAs have replaced the California Alternate Performance Assessment [CAPA] for ELA and mathematics, which were eliminated in 2015. Only eligible students may participate in the administration of the CAAs. CAA items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

#### CAASPP Test Results in English Language Arts/Literacy (ELA) and Mathematics for All Students

Subject	Percent of Students Meeting or Exceeding the State Standards					
	School		District		State	
	2014-15	2015-16	2014-15	2015-16	2014-15	2015-16

The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## C. Engagement

# State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite

### Opportunities for Parental Involvement (School Year 2016-17)

Per the petition, NLA empowers parents/guardians as educational partners. Parents/Guardians have the opportunity to participate in meaningful ways at the school site and their presence on campus and assisting teachers in the classroom is most important.

In order to ensure significant parent/guardian involvement, the school has a standing School Site Council (SSC) which serves in an advisory capacity to the NLA Board and is open to all parents/guardians and staff. NLA encourages a higher rate of parent/guardian participation (including parent/guardian conference attendance, parent/guardian meeting attendance, and parent/guardian volunteer presence) than similar schools in San Bernardino County where such data is available.

Parents/Guardians are encouraged to become active in developing their student’s learning plan and the school’s curriculum, evaluation process, and other programs.

Parent/Guardian group meetings will be established on campus. They will be used for parent/guardian education meetings, sharing resources, and parent/guardian organizing efforts for school improvement and community leadership. Outreach efforts include newsletters, posted daily bulletins, message boards, Internet and email communications.

## School Safety Plan (School Year 2016-17)

Campus safety is top priority. NLA has a safety plan that is customized for the facility. All staff members receive training on safety and emergency procedures. All staff are provided a comprehensive chart detailing the safety and first aid procedures to be followed in case of an emergency, as well as emergency contact telephone numbers for local agencies. Evacuation maps are posted in all rooms. Students participate in staff-led safety drills throughout the school year. In addition to emergency preparedness, safety plans include non-emergency safety policies and procedures as a resource to ensure safety in the workplace. Safety plan are updated yearly to reflect current changes in recommendations by first responders.

## Types of Services Funded (Fiscal Year 2015-16)

Newman Leadership Academy believes in exposing our scholars to the best possible education with the use of resources within the classroom and abroad. During the 2015-16 fiscal year, NLA funded programs and services that supported and assisted our scholars in the area of language arts and instructor training. Each of our scholars experienced excursions, tutoring and three meals a day. The third meal occurred in the Expanded Learning Program after school until 6 p.m.ices

## Professional Development

NLA implements a comprehensive model of continuous school improvement, which includes staff professional development as well as personalized coaching to help teachers implement concepts in their classroom in a practical way that meets their needs.

Teachers spend one week in the summer participating in professional development. Teachers spend a total of 40 hours in the summer preparing for the new school year. In addition to this annual commitment of 40 hours, teachers will receive on-going professional development facilitated by the Executive Director and/or from outside consultants during the school year.

The additional professional development opportunities during the school year may constitute another 60 hours of professional development to be held on designated days after school (each Monday, and on monthly minimum days). In total, teachers are supported with approximately 100 hours of professional development.

NLA has identified the following topics for professional development:

- Teachers will examine the backward design process and use specific tools (e.g. Bloom's Taxonomy, Webb's Depth of Knowledge, CAASPP implementation and analysis) and critical questions to "unpack" and prioritize content standards.
- Teachers will review their prioritized standards and work collaboratively to cluster standards around "big ideas." The "big idea" or "key" standards will serve as anchors for units. Essential questions of learning will be asked and aligned to instructional units.
- Teachers will analyze achievement targets embedded in standards, as well as assessment options available to them in order to design effective assessments that are aligned to standards.
- Teachers will establish specific criteria that will be used to determine student proficiency on any given task such as essays, projects, or oral presentations. Criteria will be clearly communicated to students prior to giving the assessment.
- Teachers will develop instructional techniques that are proven to have a positive effect on student achievement. Teachers will also demonstrate the ability to differentiate the strategies in order to meet the needs of students with special needs, English Language Learners, and gifted/talented students.
- Teachers will be adequately trained in the use of the Treasure, Pearson, 6+1 Traits of Writing and supplemental curriculum and how to align content with Common Core Standards.
